SECTION 2 - PREREQUISITES FOR IT TEAM

1. If Sage 100 and Sage CRM are on different servers, both should be in the same domain …..

2. Microsoft .Net framework v2.0, 3.5, 4.0 and 4.5 must be installed on Sage 100 and Sage CRM servers …..

3. Domain Admin user should be able to log in to both the Sage 100 and Sage CRM servers …..

4. Sage 100 application dedicated user should have Admin level rights …..

5. When installing new Sage CRM related software on the CRM server, sometimes a server restart is required. May we reboot the CRM server before 7am local time?   Yes   No

6. You must understand that the Sage CRM integration (published by Greytrix) is configured in part by the Greytrix technicians in India (Mumbai). I understand….

7. Your firewall's geo-settings must allow for access from India OR at least the following IP addresses:

    1. 49.248.14.234

    2. 114.143.249.38

    3. 36.255.85.172

    4. 14.99.133.190

    5. 106.51.36.30

    6. 106.51.77.168

8. Initially installing the integration can take up to 8-hours. This will happen outside of regular business hours and requires all Sage 100 users to be out of the Sage 100 system and all Sage 100 processes to be stopped. I understand…

REQUIRED INFORMATION FROM IT TEAM

1. We require the following credentials for remote access (RDP) and Admin level rights to the server(s) that Sage CRM will be installed on:

    a. URL of VPN server if a VPN connection is required:

    _____

    b. VPN client type (preferably Cisco, SonicWall, Windows VPN / L2TP/IPsec):

    _____

    c. VPN details: _____

    d. VPN Username: _____ VPN Password: _____

    e. URL(s) or IP Address(es) of RDP server(s): _____

    f. RDP Username: _____ RDP Password: _____

    g. Windows Service Account Username: _____ Account password: _____

    *The Windows service Account is used to configure the integration with Sage 100; therefore, the

    password associated with this account must be set to never expire.

2. Sage 100 Windows server name: _____

    a. Sage 100 Windows server credentials (**with admin rights**):

    Username: _____ Password: _____
